Full Stack Software Engineer with experience building scalable web applications using **React, Next.js, Node.js, and AWS**. Skilled in frontend architecture, backend development, API design, micro-frontend systems, and serverless solutions. Passionate about creating performant, maintainable, and user-centric products through clean and reusable code.

Experience

Software Engineer 04/2025 – Present
InspironLabs Pvt. Ltd. *Bengaluru, India*

- Developed responsive **React + MUI** applications, improving load times through code splitting and lazy loading.
- Built reusable **MUI + Storybook** components, accelerating UI development and maintaining design consistency across products.
- Integrated **Redux** for efficient state management, ensuring smooth and predictable UI behavior.
- Enhanced design consistency and accessibility across modules using shared themes and layout patterns.
- Contributed to backend development using **Node.js, Python, PHP, and AWS Lambda**, implementing APIs and serverless solutions for enterprise applications.

AI/ML Intern 12/2023 – 06/2024
ImmverseAI Innovations Pvt. Ltd. *Nagpur, India*

- Prototyped **NLP/LLM** chatbot features using API integrations, increasing user engagement by **22%**.
- Conducted research on new AI models and tools, providing insights that guided the team's development roadmap.
- Collaborated with the development team to integrate AI models into existing application architecture, ensuring seamless functionality.

Full Stack Java Developer Intern 10/2022 – 12/2023
Asterisc Technocrat Pvt. Ltd. *Nagpur, India*

- Developed modular **JSP/Servlet/Hibernate** applications, reducing UAT defect rate by **15%**.
- Collaborated with senior developers to design and implement new features, ensuring alignment with project requirements.
- Assisted in deploying applications to test and production environments, gaining hands-on experience with the full development lifecycle.

Technical Skills

Languages: JavaScript (ES6+), TypeScript, Java, Python, PHP, C, C++
Databases: MongoDB, MySQL
Frontend: React.js, Next.js, Material UI, Tailwind CSS, Bootstrap
Cloud/Tools: Git, Storybook, Vite, Google Cloud APIs, Docker (basic), AWS (EC2, S3, Lambda), CI/CD (GitHub Actions)
Backend: Node.js, Express.js, REST API Architecture
Other: Performance Optimization, Component-Driven Development, Agile/Scrum

Projects

Healthcare Platform 2.0 — React, Next.js, Module Federation, Storybook, Material UI

- Migrated a legacy healthcare application to a **micro-frontend architecture**, improving scalability and independent deployment of modules.
- Built and maintained reusable UI components using **Storybook**, ensuring design consistency and accelerating frontend development across teams.

E-Learning Platform — Node.js, Python, PHP, AWS Lambda, Serverless Architecture, MySQL

- Developed and enhanced features for a large-scale e-learning platform while modernizing and optimizing legacy codebases.
- Implemented backend services and **AWS Lambda** functions using **Python, Node.js, and PHP**, contributing to a scalable serverless architecture.

Education

G. H. Raisoni Institute of Engineering and Technology Nagpur, India
B.Tech in Artificial Intelligence *12/2021 – 06/2024*

Nagpur Institute of Technology Polytechnic Nagpur, India
Diploma in Computer Engineering *08/2019 – 12/2021*

Courses

Masai School Remote
Full-Stack Web Development Program *08/2024 – 04/2025*

Jetking Nagpur Nagpur, India
Diploma in Network Administration *10/2020 – 01/2022*
